Member's Representation

Sri V.S. PATIL (Belgaum-1).—Sir, I have been carefully listening to the discussion on this matter. According to me the answer given were completely irrelevant to the questions and you were all along swallowing the answers. That really upset the whole of this side. He said that without any support of the people, some people made some noise in newspapers for 3 or 4 days. There was no following really, he said. Who

had asked him this question. The answer was completely irrelevant. Such words are insinuating and are derogatory to the felling of the people on this side. These things ought to have been checked by you in time. That is my submission.

Mr. SPEAKER.—The Hon'ble Member should remember that so far as questions are concerned, I have got control and can check whether they are relevant or irrelevant. So far as answers are concerned, I have no such control. What is the rule? Can I say that the answer given is wrong? The person who has put the question takes the answer for what it is worth. If it is irrelevant or wrong, can I say "I know personally that the answer is wrong? Therefore you give a proper answer". I cannot compel the Minister. Anyway, we shall discuss this matter later on. Kindly let the Member meet me and I will talk to him.

Sri V. S. PATIL.—This is an important matter which raises big issues concerning the privilege of this House. Government cannot give false answers or answers which are capricious and escape with it.

Mr. SPEAKER.—We will take it up later.
